

So that *Love*
can flow again

15. - 17. April 2016, Ibiza

Family and Systemic Constellations with Steffen Wöhner

How is it that we don't seem to truly find inner peace and happiness? Why do we continue to meet blockages in our joy of living, our strength and the flow of love? And the same could be said for our relationships to those close to us, to family members and in the end the relationship to ourselves?

Systemic family constellations can help us look deeper into our hearts and to investigate these questions. It is here that we will find truthful answers as well as the patterns and inner dynamics that continue to lead us into suffering. Systemic constellations can show us the way out of sorrowful entanglements with history towards a healing connection to our internal being. Released energy will start to flow again from the essence of our soul and it will be noticeably and evidentially available. During this weekend you are invited to shed some light onto the subjects in your life that keep you occupied, to discover the source of the problem and to sort it out. All questions concerning family, occupation, relationships, physical handicaps etc. are welcome - they can be seen and perceived in a completely new way.

In systemic constellations we do not remain at the outer level, but we use outer themes as a mirror for our internal being. This creates a pathway into awareness and personal relief. There will be the possibility for you to constellate your own issues or alternatively to act as an observer and use the field of energy for your own process.

If you would like to participate, please register as soon as possible with Kicki von Michel (see below). I will also offer individual systemic sessions and Enneagramm work around that date.

Steffen Wöhner

Seminar leader, Teacher at the *Enneallionce – School for Inner Work*. He accompanies people on their inner path in seminars and individual coaching sessions. Since more than 17 years Steffen offers family and systemic constellations and works with the Enneagramm in Germany and throughout Europe.
